

Dear SSPP Parent,

The extended care committee is continuing the discussions about summer care for St. Peter and Paul students and children of our parish. We would like to get an idea of how many students and children of our parish would use this program. We expect the price to be competitive with other child-care providers in the area. This questionnaire is **not** intended to be a commitment, but rather a tool to help the committee in the planning process.

Please complete the age for each child that you may be interested in enrolling in SSPP summer care program. If none, please check the "None" box.
